

Because of specificity of program *elite & elite<sup>+</sup>*,  
many technical details and performances, our  
advice is to carefully review the following pages.

<p><b>ORNAMENT GLASS</b> IZO glass, thickness 20mm, outer glass is transparent float 4mm and inner glass is ornament. In program »Elite« you can choose from: master carre-MK, master line-ML and satinato-PJ.</p>			
<p><b>SATINATO WITH BEVELS</b> IZO glass, thickness 20mm, outer glass is transparent float 4mm and inner glass is satinato, on which bevels in white, blue, green and red color are glued.</p>			
<p><b>SATINATO WITH A LEAD STRIP AND BEVELS</b> IZO glass, thickness 20mm, outer glass is transparent float 4mm and inner glass is satinato, on which bevels in white, blue, green and red color are glued - on both sides it is edged with a silver lead strip.</p>			
<p><b>SANDBLASTED SATINATO WITH BEVELS</b> IZO glass, thickness 20mm, outer glass is transparent float 4mm and inner glass is sandblasted satinato on which bevels in white, blue, green and red color are glued.</p>			
<p><b>SANDBLASTED FLOAT GLASS WITH BEVELS</b> IZO glass, thickness 20mm, outer glass is transparent float 4mm and inner glass is a float glass on which different decors with a glued bevels in white, blue, green and red color are sandblasted.</p>			
<p><b>SANDBLASTED FLOAT GLASS WITH A LEAD STRIP</b> IZO glass, thickness 20mm, outer glass is transparent float 4mm and inner glass is a float glass, on which different decors are sandblasted. It is also edged with a silver lead strip on both sides.</p>			
<p><b>SANDBLASTED FLOAT GLASS</b> IZO glass, thickness 20mm, outer glass is transparent float 4mm and inner glass is a float glass on which different decors are sandblasted.</p>			
<p><b>SANDBLASTED SATINATO</b> IZO glass, thickness 20mm, outer glass is transparent float 4mm and inner glass is sandblasted satinato glass with different decors.</p>			
<p><b>SANDBLASTED MIRROR</b> IZO glass, thickness 20mm, outer glass is transparent float 4mm and inner glass is sandblasted mirror with different decors.</p>			

GLAZING FOR FILLINGS IN THICKNESS 24mm		
		<p>It can be only <b>double glazing</b> - outer glass is always transparent float and the inner glass is ornament or decorative.</p>
GLAZING FOR FILLINGS IN THICKNESS 36, 40mm		
		<p>It can be: <b>Double glazing</b> – outer glass is transparent float or ESG, inner glass is ornament or decorative.</p>
		<p><b>Triple glazing</b> – outer glasses are both transparent float or ESG, and inner (middle) glass is ornament or decorative.</p>

Minimum thickness of the filling with 3-layer glass can be 30mm.

# Aluminium color – standard offer

 <div>ALU WHITE 9010 HALF MATTE</div>	 <div>ALU WHITE GLOSS 9016</div>	 <div>ALU WHITE MATTE 9016</div>	 <div>ALU WHITE GLOSS 9003</div>	 <div>ALU BROWN MATTE 8017</div>
 <div>ALU GREY GLOSS 9006</div>	 <div>ALU GREY MATTE 9006</div>	 <div>ALU GREY MATTE 9007</div>	 <div>ALU GREEN GLOSS 6005</div>	 <div>ALU GREEN MATTE 6005</div>
 <div>GRIGIO ANTICO</div>	 <div>F-29/80077</div>	 <div>PUNTO GRIGIO</div>	 <div>AL ANTHRACITE GREY GLOSS 7016</div>	 <div>AL ANTHRACITE GREY MATTE 7016</div>

Specified colors are in the standard offer. In the additional offer there are all the other colors from the RAL scale.

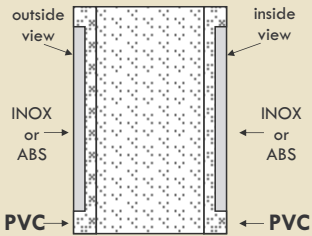

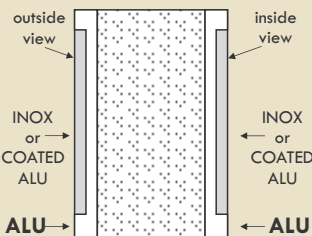

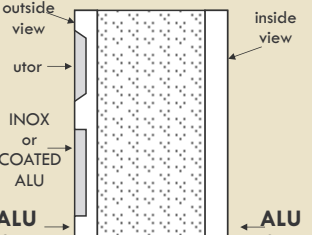

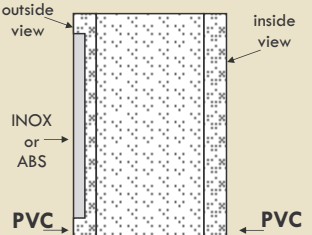

# Aluminium color wooden decor – special offer

In the offer, we have 22 wooden aluminum decors. We've chosen the most popular.

 <div>LIGHT OAK FS</div>	 <div>GOLDEN OAK FS</div>	 <div>DARK OAK FS</div>	 <div>DARK WALNUT FS</div>	 <div>WENGE FS</div>

# Applications

 <div>GREY - S RAL 1597</div>	 <div>RED - C RAL 3061</div>	 <div>BLUE - P RAL 5013</div>	 <div>GREEN - Z RAL 5081</div>	 <div>INXC (matte)</div>	 <div>INXP (polished)</div>
--	---	--	---	---	--

 	 	<b>BOTH SIDED DRAFTED APPLICATIONS AND GROOVES</b>  (applies to fillings with grooves) - In fillings with both sided applications and grooves both plates (inner and outer) are in thickness 3mm (PVC,ALU)
 	 	<b>OUTER SIDE: DRAFTED APPLICATIONS AND GROOVES INNER SIDE: FLAT</b>  in fillings with applications only on the outer side (applies to fillings with grooves) –  - AL plates both sided – outer plate thickness 3mm, inner plate 2mm.  - PVC plates – both sided - 3mm. PVC fillings in the “elite” program are without grooves.  <b>PVC panels</b> from programm <i>elite</i> cannot be with grooves and they are available only in white - VEKA C 152 or Salamander 145

All fillings in the *elite*, *elite+* i *Simple* have the Scotch Brite (matte) INOX applications – INXC.  
Polished INOX application – INXP – can be supplied only with a special order alongside the order of a filling.  
Applications on the PVC fillings can be in INOX and ABS color (grey, red, blue and green are in the offer).  
Applications on the ALU fillings can be either INOX or colored aluminum.  
Because of the specific production procedure **Bern, Cardiff, Hamburg, Lisabon, Ljubljana i Maribor** - fillings with INOX applications have to be ordered on exact measure.

# Cross-sections

		<b>Both sided AL 3mm</b>  Filling dimensions: Basic 850x2000mm Special 900x2100mm, 1100x2200mm and 1250 x 2500 mm
		<b>Both sided PVC 3mm</b>  Filling dimensions: Basic 850x2000mm Special 900x2100mm

Filling cross-section is a both sided plate – PVC, ALU – between which is glued extruded polystyrol insulation.  
The thickness of insulation depends on the thickness of the filling.  
Standard filling thickness is 24, 36, 40 mm. Different thickness can be specially ordered.

Filling can be installed in all doors made out of standard PVC or ALU profiles for entrance doors.  
Tolerance in the thickness of the filling is +/- 1mm.

With cutting the fillings to fit a custom measure, a deviation of up to 2mm in height and width can be expected.
